# Othniel Omaidu

## FULL-STACK WEB DEVELOPER
Email | GitHub | LinkedIn | Twitter | AngelList | Medium | Portfolio

## SUMMARY
Passionate Frontend developer, fluent in multiple languages and technologies, adept at learning and adapting quickly.

## SKILLS
**Programming Languages**: JavaScript, Ruby.
- **Libraries & Frameworks:** React, Rails, Next.js.
- **Database Management:** PostgreSQL.
- **Version Control:** Git.
- **Developer Tools:** GitHub and Chrome Dev Tools.
- **Test Driven Development:** RSpec and Jest.
- **Professional:** Remote Pair-Programming, Teamwork, Mentoring.

## EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS                                                                 Remote

**Full Stack Web Development Student & Mentor**                         May 2023— October 2023

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&Achallenges) while building multiple full-stack projects both independently and via pair programming.

- Driveasy — a Full-stack app for adding and managing your cars, booking vehicles, and accessing detailed car information with ease.

  Built with: (React JS, Redux, Tailwind CSS, and Ruby on Rails) and uses Postgres database.
- IMovies — IMovies is a web app that enables users to view a list of movies with details and ratings, allowing them to like, comment, and view others' comments on their favorite movies.

  Built with: (Vanilla JavaScript, CSS, HTML and bundled with Webpack).
- Bookstore — It's a user-friendly platform, powered by React.js and Redux, enabling users to interact withan API to store and manage books, including the functionality to add and delete them.

  Built with: (React JS and Redux).

MICROVERSE                                                                                  Remote

**Mentor (Volunteer)**                                                     June 2023— Present

- I provide mentorship to junior web developers, providing technical support through code reviews.
- I propose improvements to code organization to enhance code quality and overall performance.
- I provide advice and tips on how to maintain motivation to ensure longevity in the program.

TECHVIBES LTD.                                                                    Abuja, Nigeria

**Frontend Trainee**                                                      April 2022— March 2023

- Implemented clean, DRY, and reusable user interfaces for office projects.
- Built responsive and interactive client-side user interfaces following UI team designs.

## EDUCATION

MICROVERSE                                                               May 2023— November, 2023

**Remote Full Stack Web Development Program, Full-Time**

- I have spent over 1300 hours mastering algorithms, data structures, and full-stack developmentwhile simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- I have developed skills in remote pair programming using GitHub, industry-standard git-flow, anddaily standups to communicate and collaborate with international remote developers.

CARITAS UNIVERSITY, ENUGU, NIGERIA

**BSc, Computer Science**                                        September 2017— September 2021

- Study computer science and information technology.
- Got a bachelor's degree in computer science.
